Abstract (en)
[origin: EP1156556A2] The module includes a multi-conductor cable (12), in the form of a flexible printed circuit, and a single-conductor cable (60) in the form of an insulated wire with a contact piece. Two separate connection parts (15,65) are provided for coupling to the respective cables. A common receptacle (20) is inserted into the connection parts for contacting the multi-conductor cable and the single-conductor cable simultaneously.
