Abstract (en)
[origin: EP1158097A2] The cover plates (6) are supported on the rails (2,3) to bridge the intermediate space (7). The fastening (13) for one rail (2) of the track (1) are offset in longitudinal rail direction (4) relative to the fastenings (14) of the other rail (3). Edge cut-outs (10) in a support edge (8) of a plate next to one rail (2) are offset relative to the edge cut-outs in a support edge (9) next to the other rail (3), relative to longitudinal rail direction in a manner corresponding to the positioning of the rail fastenings.
