Abstract (en)

[origin: WO0044969A1] The invention relates to an artificial fur, in which staple fibres (3) are mechanically mixed to a base knitted fabric (1) formed of a yarn (1a), to protrude from the level of the base knitted fabric (1) and to form a pile on the outer surface of the artificial fur. The staple fibres (3) mixed to the base knitted fabric (1) are fixed to the base knitted fabric (1) by thermal binding by means of a plastic material softened and/or melted by the effect of heat.
