Abstract (en)

[origin: EP1160808A2] The manufacturing method has a laminated core packet assembled by combining a yoke packet with a laminated pole packet, with the yoke lamella (11) and the pole lamella (12) lying in the same plane of the laminated core packet each stamped out from a sheet metal blank, with provision of separation gaps at either end of the pole lamella and between the center limb (112) of the yoke lamella and the pole lamella.
