Abstract (en)  
A tubular protector sleeve (M) is fastened to wall (18) of an enclosure. Plugs (24,28) are connected to electrodes (E,15) with a base plate that fits into inner cavity of the sleeve. The plug is electrically connected to core (21) of shielded cable inside a metal tube (23). Seals (19,25) are provided to insulate the inside of the enclosure from outside and inner cavity of the tubular sleeve. An Independent claim is also included for physical quantity measurement system.
