Abstract (en)

[origin: WO053205A1] Use of unprocessed hop flowers for preparing a substance for suppressing and preventing the malignant growth of cancer cells, as well as the use of unprocessed hop flowers for preparing a substance for treating viral and/or bacterial syndromes with a base of substantially natural products. The present invention furthermore relates to a method for preparing a composition with a liquid base, viz. in dissolved and/or suspended form, wherein the present substance is mixed with water.
