Abstract (en)

The shower cubicle comprises a trough (1) with a vertical outer wall (10) which is connected to the interior of the trough by a horizontal lip (11). The walls (2) of the cubicle consist of rigid panels (20) which fit into a groove (26) in a profile (21). This has an outer section (22) with a horizontal base (23) which fits on the lip and a vertical section (24) which rests against the internal wall (14) of the trough. An Independent claim is included for a profile for use in a shower cubicle as described above.
