Abstract (en)

[origin: EP1162147A2] Device for producing bags, preferably made from films, has tool supports (5) positioned on drive shafts over crank-like levers. The free ends of the supports interact with fixed guides (10) in the processing region so that they are supported against the pressure force of the tool (6). Preferred Features: Rollers (9) are arranged as supports on the tool or its holder (8) and engage with the guides when the tools pass through the operating region.
