Abstract (en)

[origin: EP1162314A1] The connection for a trellis metal tube (1) and a concrete beam (P) comprises at each end of a tube a metal plate welded at the tube end perpendicularly to the tube axis. The plate is supported on the beam and has several holes (3) into which are engaged plate fixing screws (7,9,10) to bars (6) embedded in the beam concrete.
