Abstract (en)

[origin: EP1162373A2] A delivery device (4) has a drive unit (7) and a delivery unit (3) driven by the drive unit linked to a low-pressure fluid line (1) downstream on the inlet side from a low-pressure delivery device (9) working in the low-pressure fluid line and upstream from this low-pressure delivery device on the outlet side. On the inlet side the delivery unit connects to the low-pressure fluid line.
