Abstract (en)  
[origin: WO0057003A1] The invention relates to an array for securing a vehicle parking area, comprising a vertical wall surrounding the parking area, wherein wall elements (3) which can be moved horizontally and at an angle relative to one another form part of said wall. According to the invention, a storage device (2) is provided for receiving the wall elements, wherein said storage element has zig-zag, helicoidal or meander-shaped guide elements enabling space-saving arrangement of said wall elements (3) and is configured as a transportable unit.
