Abstract (en)

[origin: EP1164027A2] An ink jet printer wherein a belt (14) transports an image receiving member (20) past a printhead (11) is equipped with guiding means (18) for creating a bulge, d, in said belt (14), extending towards said ink ejecting means (11), thus keeping the "throw distance" constant and/or with rollers (13, 15) for moving the belt (14), one of the rollers having a flange (13b) and being positioned so as to force the belt against the flange. <IMAGE>
