Abstract (en)
[origin: WO0059295A1] The invention relates to an identification device for receiving identifying elements and/or information for identifying animals, especially dogs and other pets. The identification device can be detachably fitted to an animal and is provided with electronic storage means (22), input means (17, 20; 30) and output means (20) for said identifying elements and/or information. The output means have at least one variable display for reproducing at least one telephone number and/or address.
