Abstract (en)
[origin: WO0059343A1] The invention relates to fittings with a distendible guide for drawers. Said fittings comprise a body rail (2) and a drawer rail (1) on both sides of the drawer. Supporting rollers (4) are mounted on the body rails and swivelling rollers (3) are mounted on the drawer rails. The swivelling rollers (3) are guided in U-shaped profiled sections of the body rails (2) and run off on lower and upper horizontal webs (2b, 2c) of the body rails (1). Two swivelling rollers (3, 16) that are arranged on opposite sides of the drawer are connected to each other in a rotationally fixed manner.
