Abstract (en)

[origin: DE19915151A1] The invention relates to a door module support (100) with a metal base body (1) for closing an opening (11) in a door (10) of a motor vehicle. The metal base body (1) does not entirely cover the edge (12) of the opening (11). A least one plastic section (2) for covering the edge (12) is arranged on the outer contour of the metal base body (1).
