Abstract (en)
An item of underwear which, unusually, is capable of combining several functions into a single garment, comprises a first portion (2) formed in the shape of knickers and a second portion (3) which extends seamlessly from an upper part of the first portion (2) to a delimiting edge (5) of said garment, the first and second portions having a degree of elasticity such that the delimiting edge of the garment can reach at least as far as the wearer's bust at the top. Fastening means (10) are also provided for attachment to accessories such as, for example, a single shoulder strap (7), two shoulder straps (7), a bra (8) or straps (9) which act as suspenders. The fastening means (10) are positioned close to the delimiting edge (5) of the garment. <IMAGE>
