Abstract (en)

[origin: WO0045815A1] The present invention relates to a method of alleviating the discomfort, such as the feeling of intense heat, experienced by a woman during a hot flash. The present invention also relates to compositions that may be used to practice the foregoing method. More particularly, the present invention relates to the topical application of compositions having cooling compounds as a method of alleviating discomfort experienced by a woman during a hot flash.
