Abstract (en)

Enclosure for collapsible swimming pools, which comprises a framework, a reinforced curtain and an alignment of lateral supporting sections, in which the upper frame is formed by two tubular sections (1) and (2) laterally self-assembling, in which the section (1) incorporates a wide circular open recess (1.1) in which is housed a clasp (3) which holds on its inside a border (4.1) of the curtain (4), moreover it is possible to form the union of the sections (1) and (2) with the corner pieces (5) which have a flange (5.1) below, rectangular tubular elements (6) serving to implement the union and provide reinforcing which fit inside the sections (1) and the corner pieces (5). <IMAGE>
