Abstract (en)

[origin: EP1172505A1] The mast is composed of two reeds (10, 20) plugged into each other, of which one, the floor reed (10), is anchored in the floor, and the second (20) is attached on the first. A maintenance aperture (12) is preferably provided at the side of the floor reed, which is closed by attaching the second reed, and is made accessible through lifting of the second reed. The floor reed comprises grooves for guiding the second reed.
