Abstract (en)  
[origin: WO0064279A1] The present invention relates to novel compositions of cactus fruit extract and other health promoting ingredients. Preferred embodiments also comprise ginseng berry extract. These compositions provide nutrition, physiological stimulation, moisturization and other benefits through ingestion and topical application. The compositions and methods of preferred embodiments of the present invention provide a natural vitamin containing composition for beverages, food products, dietary supplements and topical applications which provide the consumer with a refreshing, delicious, stimulating and/or healthful experience.
