Abstract (en)  
[origin: WO0064306A1] A toothbrush made partly of a hard plastic material and partly of an elastomeric material, characterised in that at least part of the elastomeric material comprises an inner core (23) of a first, soft elastomeric material wholly or partly enclosed within an outer flexible skin (24) of a second polymer material having different physical characteristics to the inner core polymer. Processes for making such a toothbrush are also described.
