Abstract (en)

[origin: EP1174961A2] The electric plug bridge (1) has at least one reception sleeve (5a,5b,5c) for the end of an electrical conductor lead and an associated insertion aid (6) formed from an injection molded material, the insertion aid having a curved wall (7a) which is angled inwards in the direction of the reception sleeve. An Independent claim for an injection mold for manufacture of a plug bridge is also included.
