Abstract (en)  
[origin: EP1175855A2] The bed sofa is assembled of a seat- and back frame (3,4), both covered with padded textile layers (5,6) on elastic laths, and two pairs of legs (13,14,15,16). Each pair (13,14,15,16) is joined to a horizontal bar (17) with openings positioned on both ends. Two pivots (9,10,11,12) are fixed to each side of the frame (3,4), one to the seat part (1), the other to the back part (2), which are guided through the center of roller bearings (22,22',24,24') into the opening of the connection bar (17). For unfolding first the seat part (1) is rotated around the pivot s (9,10) into a horizontal position and in a second step the back part (2) follows.
