Abstract (en)

[origin: FR2792011A1] The invention relates to method for providing a fabric with long-lasting highly visible colours or intense shades of white, comprising a specific preparation consisting of two stages wherein one stage involves the re-washing of the initial unbleached colours. The inventive method provides intense, long-lasting and varied colours (yellow, orange, red, fuchsia, bright green). The invention can be used for protective clothing.
