Abstract (en)

[origin: EP1177731A2] The device has a sleeve or cigarette supply unit, a supply device (6) to supply tobacco to a device (1,5,10) to form a cylinder of tobacco and a transfer device to transfer the tobacco cylinder into a cigarette sleeve. The device has units (3,4), to determine, and control the optimised qualities, such as weight, end strength or length, of the tobacco cylinder or finished cigarette during manufacture. An Independent claim is included for a method for using the device.
