Abstract (en)
[origin: EP1178574A1] An industrial inline electrical socket/plug, which includes a casing and a plug-in component which has electrical connectors for a cable to be connected and members for mutual electrical connection between a plug and a socket, the casing being monolithic and comprising a grip portion and a protective neck for the electrical connection members. The plug-in component can engage in the casing by means of a bayonet-type quick coupling. <IMAGE>
