Abstract (en)
[origin: US6688314B1] The present invention relates to an applicator device for highlighting hair. The applicator device includes a closure cap for mounting on a container, at least one product guide located on the closure cap for dispensing hair colorant, and at least guide prong located adjacent to the product guide. The guide prong is removable from the applicator device and is substantially in the shape of a strip with a width that extends beyond the product guide in at least one direction.
