Abstract (en)

[origin: FR2794153A1] The invention relates to a construction framework (O) kit which is ready to assemble and is made of cold-formed shaped steel. The inventive framework kit is used to form the stanchions (100), purlins (200), trusses (300), beams (400), ribs(500), struts (600) etc. of a building. The invention is characterized in that the stanchions (100), purlins (200), trusses (300) and beams (400) are made of at least one profiled section (700) which adopts the same shape. The invention can be used in the following fields: ready-to-assemble buildings and buildings used for animal farming.
