Abstract (en)
[origin: EP1180567A2] The wall and facing system comprises flat panels suspended on a support structure. At least two support elements (1) are provided for each panel and are by their ends are fixed and also tension loaded. The diameter of the support elements is the same size or smaller than the thickness of the panels, and the holders for the support elements extend parallel to the panels. At least one end of each support element has at least one connecting element (2,5) for other components.
