Abstract (en)

The invention relates to a method for processing animal manure, in particular poultry manure, and more in particular chicken manure, characterized by the steps: drying the manure; subjecting the manure obtained in step a) to gasification , thereby yielding a combustible gas mixture; purifying the gas mixture obtained in step b); cracking the purified gas mixture obtained in step c) , thereby yielding a mixture of at least one combustible gas, hydrogen gas and nitrogen gas; and cooling the gas mixture obtained in step d). The invention also relates to an apparatus. <IMAGE>
