Abstract (en)

[origin: DE10040834C1] Plug lock, and especially panic lock, has spring bolt in housing coupled to locking rod holder and spring to push rod holder into extended position. One end of spring (14) is at locking rod holder (3), or at drive section (6,7) between spring bolt (2) and locking rod holder. Other end of spring is supported at setting unit (17), which is adjusted from outside of housing (1) by setting screw (19).
