Abstract (en)
[origin: WO0054616A1] Footwear including an upper (21), a sole having a removable midsole section (145) and a bottom sole (149). The inner and outer surfaces of the shoe sole being concave rounded. The shoe sole includes at least one compartment (188) containing a fluid, a flow regulator (140), a pressure sensor (104) to monitor the compartment pressure and a control system to automatically adjust the pressure in the compartment(s) (188) in response to the impact of the shoe sole with the ground surface (43).
