Abstract (en)

[origin: EP1184283A1] The method for banding stacks (3) of printed products, which may vary in height, comprises applying press arms (8.1, 8.2) with a central slot (19.1, 19.2) to the top and bottom of the stack. The band (27) is then fitted over these and can be positioned by them. An Independent claim is included for a machine for carrying out the method.
