Abstract (en)  
The nozzle (1), made from a plastic material, has one end (3) shaped to fit onto the hair drier, and a series of outlets (11) to produce individual jets of air. The outlets can be in a straight line, in one or more rows, or in concentric rings, and they can be made to be adjusted manually or via a suitable mechanism to vary the configuration of the jets.

Abstract (fr)  
Embout (1) de sèche-cheveux comportant une première extrémité (3) destinée à s'adapter de manière classique, à l'embouchure du sèche-cheveux, caractérisé en ce que sa deuxième extrémité (5), opposée à la première, comporte des tuyères (11) divisant le flux d'air en plusieurs jets individuels.
