Abstract (en)
The house is constituted from walls made by stacking beam edges (3,4,5). The corner between two walls is formed by stacking of prefabricated dihedrals (21,22,11,12) thus avoiding difficult handling on the site.

Abstract (fr)
La maison est constituée de parois faites par l'empilage de chant de madriers (3,4,5,6). L'angle entre deux parois est formé par l'empilage de dièdres (21, 22 ; 11, 12) préfabriqués évitant ainsi une manipulation difficile sur le chantier des madriers. <IMAGE>
