Abstract (en)
[origin: DE10045582C1] The sunblind has 2 fixing consoles for providing the fixings for the blind shaft (1) and the pivot arms (7), each console having a flange section (10) extending perpendicular to the plane of the fixing wall, supporting a carrier plate (3) providing the shaft and pivot arm fixings. The flange section and the carrier plate are coupled via a pivot fixing and have elongate openings (22,23) for reception of a setting screw (24), allowing angular adjustment of the carrier plate relative to the flange section.
