Abstract (en)

[origin: WO0075432A1] An anchoring system (1) for portable barricades or barriers, comprising a base (2) having a cavity space therein to contain water, a vertical post or bollard (3) adapted for attachment to the upper end of the base by a bayonet type fit between the base and the lower end of the post (12, 13), and wherein the upper end of the post includes a horizontal extending slot (5) adapted to receive either a single or two overlapping barricade barrier boards. The upper end (7) of the post (3, 4) may incorporate a warning light (6). The base (2) may incorporate a carry handle (15).
