Abstract (en)

[origin: WO0104037A1] The invention relates to a panel construction for an elevator shaft door (10) that is mounted at the threshold of an elevator shaft door of an elevator shaft of an elevator. Said panel construction is configured as a housing (20) for supplies to be mounted therein at the interior (18) of the panel construction facing away from the shaft. The depth (T) of the housing (20) is adapted to the depth of the threshold of the elevator shaft door.
