Abstract (en)
[origin: WO0104995A1] The invention relates to an HF right-angle connector comprising a plug receiver (8) on which a codification (9, 10) for the plug to be received is placed, and comprising a socket housing (1, 2) in which connecting means (3, 4; 7) are accommodated. According to the invention, it is possible to plug the plug receiver (8) into the socket housing (1, 2) in different positions so that the coaxial line (5) can be diverted in different directions.
