Abstract (en)
[origin: EP1195476A2] Adjustable drainage grid holder (10) comprises a frame (14) for receiving one or more drainage grids (12) and supported via supporting feet on a longitudinal shaft (38). The shaft is able to pivot about an axis which lies parallel to the wall of a building on the frame or a plate (36) which is positioned on the ground. Preferred Features: The ends of the supporting feet on the side of the drainage grids are arranged on both frame profiles (14a, 14b) of the frame to receive supporting profiles.
