Abstract (en)
[origin: US6740097B1] An epilator for plucking hairs from human skin, the epilator having a housing in which an epilating head driven by drive elements and carrying plucking elements is mounted, provision being made in the area of the epilating head for movably mounted driven elements for the mechanical stimulating striking of the skin by a contact element, the striking reducing the subjective pain of epilation to the user.
