Abstract (en)  
[origin: US6138830A] Packaging for tablets, capsules and the like pharmaceutical products, that is child-proof and user friendly for senior citizen, is in the form of a blister pack (12), with at least one cup (24) which accommodates the tablet (20) closed off by a push-through foil lid (26), situated in an outer packaging (10) between a base part (14) and a cover part (16). The cover part (16) is covered over by a closure part (18) such that the lid foil (16) on the blister pack (12) faces the cover part (16) and the cover part (16) features an outlet opening (32) in line with the cup (24) in the blister pack (10). A cover strip (34) which is arranged between the base part (14) and the cover part (16) covers the outlet opening (32), can be removed on opening the closure part (18) thus exposing the outlet opening (32).
