Abstract (en)

[origin: DE19931708A1] The invention relates to quickly decomposable compositions containing at least one pharmaceutical active ingredient and at least one adjuvant, obtainable by means of a simple method wherein at least the greater part of the total mass of the constituents of the preparation which is to be produced is granulated, the granulate thus obtained and, optionally, the rest of the constituents are shaped in the presence of liquid at almost no pressure and the shaped bodies thus obtained are dried.
