Abstract (en)
[origin: WO0112537A1] The invention relates to a container for beer, soft drinks and the like, which includes a shut-off cock comprising an inner part, on which an outer part is mounted, wherein one of said parts is fixed to the container and wherein an annular seal is fitted over the inner part and/or the outer part in such a manner that removal of the inner part from the outer part will result in to the annular seal being damaged. The annular seal is divided at at least one location, and it comprises a once-only closure at the location of the division.
