Abstract (en)
A shoe sole for a shoe like an athletic shoe including a midsole (127) and a bottomsole (128). The shoe sole includes at least one rounded portion formed by a concave portion of the sole outer surface and a convex portion of the sole inner surface, as viewed in a frontal plane cross-section when the shoe sole is in an upright, unloaded condition. An upper part of the outer midsole surface of the midsole component extends above a lowermost point of the nearest sidemost portion of the inner surface of the midsole component, as viewed in the frontal plane cross-section. Each concave portion of the sole outer surface is formed by a series of at least three adjacent substantially straight-line segments (110) of the sole outer surface. At least part of the sole midtarsal area includes an indentation as viewed in a sagittal plane cross-section. <IMAGE>
