Abstract (en)

[origin: EP1199011A1] A bottom frame structure for a playpen includes four upright rods (2), a bottom frame (3), a positioning base (4), and a top frame (5). The four upright rods (2) are respectively located at four corners of the playpen for supporting and linking between the bottom frame (3) and the top frame (5). The bottom frame (3) is mounted on the lower end of the four upright rods (2) and includes four first rods (31), two Y-shaped first connecting bases (32), four universal joints (33), four second rods (34), two T-shaped second connecting bases (35), and four third rods (36). The positioning base (4) is used to link the four third rods (36) and includes a cruciform body (41), four fitting rod members (42), four U-shaped urging drive blocks (43), four elastic members (44), and a release block (45). <IMAGE>
