Abstract (en)  
[origin: EP1199276A1] The compensation weight (10) in the form of an elongate cable section with at least one carrier element (20a,20b), in particular, for an elevator system comprises at least one elongate weight element (14) consisting of a mixture of a plastic material (16) and one or more powdery metal salts and/or metal chalcogenides (18). Also claimed is an elevator system with the proposed compensation weight.
