Abstract (en)
[origin: FR2796875A1] The invention concerns a modular gripper designed to transport all types of materials: metal, cardboard, glass, plastic, wood, in all types of industries. It consists of several types of aluminium sections, and several types of mechanical components made of light alloy which, by virtue of their shapes, can be quickly assembled and manage all types of materials to be transported (see photograph 1). Said invention is particular designed for gripping parts made of material of all types such as metal, cardboard, glass, plastic, wood and others in all types of industries.
