Abstract (en)  
It comprises a plurality of means which are attached to each other, said modules forming the top, bottom and rear parts of the cupboard, and also the sides and the doors. It is characterised in that the rear part (1) of the cupboard is made up of a number of modules (4, 5) which are attached to each other and to the modules (2) which form the sides of the cupboard by means of a plurality of fixing pins (11) which are housed in complementary orifices (10) made in adjacent modules. The assembly of the cupboard is very convenient and fast, since the pins can be inserted easily in the orifices provided for the purpose. <IMAGE>
