Abstract (en)  
[origin: EP1201366A1] The conditioner (1) has a cross-section matching the cross-section of the groove (3) running round the grinding wheel (2). The width of the conditioning appliance corresponds to the width of the groove(s). The length from one side end to the other of the conditioning appliance corresponds to the depth of the groove(s) from one side edge to the other, with the length increasing with the depth.
